

NURS307 : Nursing Care II

This course is second in the series of nursing care courses that utilizes a body-systems and lifespan approach to nursing care for individuals, expanding on primary and secondary prevention of prevalent health conditions through application of the nursing process. The course emphasizes critical thinking skills to promote interprofessional collaboration and safe, person-centered nursing care. Clinical experiences foster information management skills and expansion of nursing roles to promote health in a variety of medical-surgical, high-fidelity simulation, outpatient, and community settings.
