

# General Education

A plan for General Education has been developed for both the Baccalaureate and Associate degree level. This plan addresses six categories of study: Natural Sciences, Social Sciences, Communications, Mathematics, Humanities/Fine Arts and Business/Management. Students completing a degree from Bryan College of Health Sciences must meet the requirements of the General Education plan. The General Education plan provides a core of knowledge which is further integrated into the student's major area of study. In addition to the core provided in the General Education plan, students may have other required General Education courses that must be completed to complement the major area of study.
