

# Statement of Diversity

Bryan College of Health Sciences honors cultural differences and promotes equality of all individuals through creation of a campus climate of inclusion, tolerance, and respect. The College provides students with curricular and co-curricular opportunities to help them to grow personally and professionally and to prepare them to be culturally competent citizens in a diverse and ever-changing society. The College emphasizes the significance of providing faculty and staff with educational and collegial opportunities to maintain an environment which recognizes the importance of cultural competence.
